

Moodle 2.6 新功能介紹

銘傳大學

Outline

- For teachers
- For administrators and managers
- For all users

For teachers

- Improved grading features
 - Easily review and provide in-line feedback by annotating on PDF files directly within browser.
 - Conveniently allocate student assignments to different markers, and control when marks are released to individual students.
 - Certainty-based marking in Quizzes now provides improved feedback for learners.
- Dynamic and streamlined course management
 - Quickly edit course activities and resources across all devices.
 - Easily add a Single activity course format.

Annotate uploaded PDF files in browser

- Provide feedback directly within PDF file submissions by using a variety of annotating tools available, including stamps and phrases from a comment bank.

Enhanced marking workflow and allocation (評分工作流程)

- Control when marks are released for viewing, for example, when they have been reviewed and moderated. Individual markers can also be allocated assignments and these allocations will show up clearly in the gradebook.

The screenshot shows a Moodle assignment gradebook interface. The browser address bar indicates the URL: `demo.moodle.net/26demo/mod/assign/view.php?id=20&rownum=1&action=grade`. The user is logged in as Ms Wilson. The interface includes a sidebar with navigation options like 'My home', 'Site pages', 'My profile', and 'Current course'. The main content area displays a table of student submissions with the following columns: 'First name / Surname', 'Status', 'Marker', and 'Grade'. The table contains five rows of data, including a student with 'No submission' and a red warning 'Assignment is overdue by: 4 days 10 hours'.

First name / Surname	Status	Marker	Grade
Lex Luther	No submission Not marked	Choose...	/ 100.00
Michael Moriarty	Submitted for grading In marking	Dr Watson	75.00 / 100.00
Ernst Biofeld	Submitted for grading Marking completed	Professor Plum	64.00 / 100.00
Patrick Bateman	Submitted for grading Released	Mrs Peacock	45.00 / 100.00

Easily edit course activities and resources

- Editing tools have been grouped together to in a simple dropdown menu for easy accessibility across desktop and mobile devices.

Add a Single activity course format

- Simply select and add any one activity as a standard course format which is displayed directed on the course page (This feature supersedes the old SCORM course format).

For administrators and managers

- Enhanced platform management
 - Create and manage bulk courses efficiently
 - Simpler course and category management
 - Create additional name fields
 - Conveniently import and export role definition using XML file
 - Restoring of very large courses possible

Bulk course creation tool

- Create multiple courses efficiently using a single CSV file. The functionality also extends to updating or deleting courses as well as importing content from another course.

Streamlined course and category management

- Easily sort, create, and delete course categories in a more intuitive interface with drag and drop functionality.

The screenshot displays the Moodle course and category management interface. The browser address bar shows the URL: `demo.moodle.net/26demo/course/management.php?categoryid=1&courseid=11`. The user is logged in as Ms Wilson. The page title is "Course and category management".

The interface is divided into three main sections:

- Course categories:** A list of categories including Sciences, Humanities, Sports, and Languages. Each category has a "Create new category" link and a "Move" button. A "Sorting" section allows users to select categories and sort them by name or full name.
- Sciences:** A list of courses including Forensics, Chemistry, Earth Sciences, Physics, and Restless Earth. Each course has a "Move" button. A "Move selected courses to..." section allows users to choose a category and move the selected courses.
- Forensics:** A detailed view of the Forensics course, showing fields for Full name, Short name, ID, number, Category, Groupings, Groups, Role, assignment, Enrolment, methods, Format, and Sections.

Create additional name fields

- Add and customise additional name fields to flexibly display user names in Chinese characters, local phonetic system or Romanization.

The screenshot shows a Moodle course page titled "AC250: Participants". The browser address bar is "demo.moodle.net/26demo/user/index.php?id=3". The page is for user "Ms Wilson" (logged out). The navigation menu on the left includes "Home", "My home", "Site pages", "My profile", "Current course", and "AC250". Under "AC250", there is a "Participants" section with sub-items: "Course blogs", "Notes", "Adrian Greeve", "Badges", "General", and a list of dates from "13 November - 19 November" to "8 January - 14 January".

The main content area shows "All participants: 11" with a search icon. Below this, there are search filters for "First name" and "Surname", both set to "AllABCDEFGHIJKLMNOPQRSTUVWXYZ". A "User list" button is set to "Brief". The "Current role" is "All participants".

Select	User picture	Surname / First name	ID number	Email address
<input type="checkbox"/>		伊藤 拓磨 (いとう たくま) Takuma Itou	1001	initiald@softbank.ne.jp
<input type="checkbox"/>		伊藤 早苗 (いとう さなえ) Sanae Itou	1002	sunny-one@docomo.ne.jp
<input type="checkbox"/>		山西 海南江 (やまにし かなえ) Kanae Yamanishi	1003	kanabanana@docomo.ne.jp
<input type="checkbox"/>		石川 渚女 (いしかわ ゆな) Yuna ishikawa	1004	yuna.fantasy@softbank.ne.jp
<input type="checkbox"/>		水谷 滄来 (みずたに ゆき) Yuki Mizutani	1005	snowiswhite@docomo.ne.jp

Import and export role definitions

- Export and import role definitions as XML files. New roles may be based on existing data:
 - role archetype
 - existing role
 - role definition XML file

The screenshot displays the Moodle 2.6 Admin interface for defining a role. The browser address bar shows the URL: `demo.moodle.net/26demo/admin/roles/define.php?action=view&roleid=5`. The user is logged in as Ms Wilson. The page title is "Viewing the definition of role 'Student'".

On the left, there is a navigation menu with sections: NAVIGATION (Home, My home, Site pages, My profile, Courses), ADMIN BOOKMARKS, and ADMINISTRATION (My profile settings, Site administration, Notifications, Registration).

The main content area shows the role definition for 'Student' with the following details:

- Short name: student
- Custom full name: Student
- Custom description: Students generally ha
- Role archetype: ARCHETYPE: Studen

Buttons for "Edit", "Reset", "Export", and "List all roles" are visible. A file dialog window titled "Opening student.xml" is open in the foreground, showing the file "student.xml" (20.9 KB) and asking "What should Firefox do with this file?". The "Save File" option is selected.

Backup and restore large courses

- Backup and restore large courses Improved performance allows users to quickly backup large courses safely and if needed, easily restore the courses for use.

The screenshot shows the Moodle backup interface for a course named 'Project Change'. The browser address bar indicates the URL is `demo.moodle.net/26demo/backup/backup.php`. The user is logged in as 'Ms Wilson'. The page title is 'Backup course: Project Change'. The navigation menu on the left includes 'Home', 'My home', 'Site pages', 'My profile', 'Current course', 'Project Change' (expanded to show 'Participants', 'Badges', 'Introduction', 'The facts', 'Doing my part'), and 'Courses'. The 'ADMINISTRATION' section includes 'Course administration', 'Turn editing on', 'Edit settings', and 'Users'. The main content area shows a progress bar with steps: '1. Initial settings', '2. Schema settings', '3. Confirmation and review', '4. Perform backup', and '5. Complete'. Below the progress bar, there are two 'Include:' sections. The first section has two 'Select' dropdowns, both set to 'All / None (Show type options)'. The second section is a table of course components and their backup status:

Component	Backup Status	User data
Introduction	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
News forum	<input checked="" type="checkbox"/>	- <input checked="" type="checkbox"/>
Help forum	<input checked="" type="checkbox"/>	- <input checked="" type="checkbox"/>
About the project	<input checked="" type="checkbox"/>	- <input checked="" type="checkbox"/>
The facts	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Climate change evidence	<input checked="" type="checkbox"/>	- <input checked="" type="checkbox"/>

For all users

- Experience a better learning platform
 - A more user-friendly TinyMCE editor
 - Easily access files from Microsoft Skydrive.
 - Improved calendar handling with multiple calendar support
 - Simplified username and password recovery
 - Improved file management in TinyMCE editor
 - Better responsive design across devices
